

ECE 2350 CIRCUIT ANALYSIS I

**Online Course Syllabus - Revised
9 Apr 2020**

**Professor Jim Dunham
Spring 2020**

With the University moving to online classes after Spring Break for the remainder of the Spring Term, I am providing you with an update to the Course Syllabus to address online course issues.

All course lectures will be delivered using Zoom at the regularly scheduled days and times and you have received an invite for these Zoom sessions. The sessions are being recorded and will be available in Canvas under the Panopto section later that day. Please let me know if you run into any problems.

Exam 3 which was originally scheduled for the last day of class will now be held in line with the University scheduled final exam day which is Friday, May 8 2020. Since the exam will be administered by ProctorU and taken in an online format, I will allow you to take exam 3 on any day between May 6 and May 8. I will make sure that you are allowed access to the class website, that you can use links to other sites provided on the class website and that you are allowed to use calculators.

Homework sets will be assigned in the usual manner and the table below shows the various revised dates associated with each assignment. You will be submitting your homework via email. Please make sure that your name appears on the first page of your electronic submission and that the Subject line of your email starts with "ECE 2350". If possible, please scan your homework submission and submit it in a PDF format. If you are submitting photos of your homework, use as much lighting as possible. Be sure to review each photo and adjust the lighting level as needed to insure that your homework when be readable it is printed out. Instead of taking photos, I strongly suggest using CamScanner as it does a great job in adjusting the light levels and can be downloaded for free from the URL <https://www.camscanner.com/user/download> for Android, iPhone and iPads.

I will be grading your homework submissions since there will not be a grader for the course in the online format. I will do my best to return your graded homework shortly after the date for the posting of the solution set. But you should consult the posted solution sets as there may be unanticipated delays in returning your graded homework submissions.

Exams 2 and 3 will be administered via ProctorU and I recently sent you an email discussing this. I will hold a Problem Review Session online before each exam. I can also setup individual Zoom meetings as requested.

If you have any questions, please send them to me via email. Be sure to start the Subject line of the email with “ECE 2350” so I can quickly identify ECE 2350 class related emails.
